Career Objective

Aspiring AI Engineer & Python Full-Stack Developer with strong skills in Python, React.js, Django, Machine Learning, and REST APIs. Experienced in building software solutions and AI-based applications, with strong problem-solving, communication, and teamwork abilities. Eager to apply technical expertise, innovate, and grow in a dynamic software engineering environment.

Education

B.Tech – Computer Science and Engineering (Artificial Intelligence) 2023 – 2027
CGPA: 8.9/10
Annamacharya University, Rajampet, Andhra Pradesh

Intermediate Education 2021 – 2023
94%
Government Junior College, Banganapalli, Andhra Pradesh

Secondary School Certificate (SSC) 2021
98%
Government High School, Andhra Pradesh

Technical Skills

- **Programming:** Python, Java (Fundamentals), SQL
- **Frontend:** HTML, CSS, JavaScript, React.js
- **Frameworks & APIs:** Django, Django REST Framework, REST APIs
- **Database:** SQL, MySQL, PostgreSQL
- **AI & Machine Learning:** Machine Learning, Natural Language Processing (NLP), TF-IDF, Similarity Matching
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA)
- **Deployment:** Vercel, Render

Internship Experience

Artificial Intelligence Intern 2 Months
Alpha Innovation Remote

- Worked on Artificial Intelligence concepts and practical implementation of AI technologies.
- Improved problem-solving and teamwork skills through real-time project collaboration.

Python with Machine Learning Intern 3 Months
RVNS Company Remote

- Worked on Python programming and Machine Learning model implementation.
- Learned data processing, model building, and AI application development concepts.

Projects

AI Resume Analyzer – Machine Learning Web Application

GitHub: https://github.com/pallaviavula8247/resume_analyzer | Live Demo: <https://resume-analyzer-pld8.onrender.com/>

- Developed a Django web application for resume parsing, ATS analysis, skill-gap detection, and job matching.
- Used NLP, TF-IDF, and similarity matching to analyze resume content and generate job recommendations.
- **Technologies:** Python, Django, Django REST Framework, Scikit-learn, Pandas, NLP, HTML, CSS, JavaScript.

EduPath Tech – Education Pathway Platform

GitHub: <https://github.com/pallaviavula8247/Edupath-tech> | Live Demo: <https://frontend-dun-nine-gw4g22alnr.vercel.app/>

- Designed a no-login web tool that generates step-by-step roadmaps, scholarships, and college recommendations based on student goals and academic level.
- Implemented Django REST API with seeded data for goals, roadmaps, scholarships, and colleges; integrated location-based nearby college search using JavaScript.
- **Technologies:** HTML, CSS, JavaScript, Django, Django REST Framework, PostgreSQL, Render, Vercel.

ScamGuard – Rental & PG Scam Risk Checker

GitHub: https://github.com/pallaviavula8247/Rental_PG_Scam_Checker | Live Demo: <https://rental-pg-scam-checker.vercel.app/>

- Built a responsive web application to detect potential rental and PG scam signals using rule-based NLP-style pattern matching.
- Implemented dynamic risk scoring, scam classification, explainable warnings, and safety recommendations.
- **Technologies:** HTML, CSS, JavaScript, localStorage, Rule-Based NLP.

Additional Information

Soft Skills: Communication, Teamwork, Problem Solving

Languages: Telugu (Native), English (Professional), Hindi

Interests: Full-Stack Development, AI Applications, Machine Learning Models
